ENERPAC 

**The Enerpac E-Pulse drives high productivity
through its innovative design.**

**Smart controls enable the motor to maintain constant power
providing higher flow than traditional pumps.**

Performance

- **Two-stage pump with high by-pass pressure:
2,13 l/min at 175 bar, 0,52 l/min at 700 bar**
- **Smart controls enable motor to maintain constant power across the pressure range**
- **24VDC power regulator minimizes effects of poor power supply**

Durability

- **Durable aluminium housing**
- **Built-in thermal protection**
- **IP Rating: IP54 on the pump, IP67 on the pendant**
- **Integrated heat exchanger minimizes heat build up**

Convenience

- **Integrated pressure gauge**
- **Pendant and cord management system**
- **Convenient oil fill port, oil level indicator and automatic breather.**

Interactive Pendant

- **Operation, programming and diagnostics status provided to operator with yellow, green and red LED as well as vibration pulses.**
- **Fault codes warn operators of any issues related to voltage, temperature, button controls, or if professional service is required.**
